

# GEELONG RUN REPORT

3<sup>RD</sup> SUNDAY 21<sup>ST</sup> DECEMBER 2025

Not long to Christmas and people have a few things on at the moment so only 5 of the usuals were at the Waurin Pond start. Looked like a good riding morning except that heavy rain was forecast by lunchtime -so the decision was made to get going early and take a fairly direct route to Deans Marsh for coffee. (Some of the Western Explorer Rally participants from a year or so ago might remember Deans Marsh)?

So I led the group through Ceres, down Cochranes Road, through the bollards at the end of the old Princes Highway and then down to School Road, Cape Otway Road and a lefty on to Deans Marsh Road. Very little traffic (wait until after Xmas!) saw us arrive after 50 kms in a timely fashion at about 10:45 at Deans Marsh. Pretty quiet there too, so we were served promptly and sat outside enjoying our company as usual for far too long -leaving the rain drops looking close as we decided it was time to get home!

Didn't waste time back down Cape Otway road and most of us managed to get home almost dry except for Bean Counter Nick who apparently was soaked to the skin in a torrential downpour before he got home to Lara! 🌧️

Stan Rogers
